T-34 tanks in

repair shop:

ZIS truck

At the present time there are "several" amphibious tanks and amphibious "automobiles" in the shop for repairs. Height of the tank is approximately 2.75 m., length approximately 6.00 m. Attached to the track fenders are "air cannisters" which may also be found inside the compartment. A firewall separates the crew, in front, from the motor to the rear. A propeller is attached at the rear. The entire tank is made of ~~xx~~ "light weight" material.

Berlin

[redacted] a large search action is presently taking place in Fuerstenwalde and vicinity as well as in the area east of Berlin. Five Soviets who deserted [redacted] are being searched for. Who these persons are is not known. [redacted] three of the Soviets are from Frankfurt/Oder and two are from Fuerstenwalde. It is not known whether the search action has met with success.

50X1-HUM

[redacted] a new restricted area has been fixed in the "Ravenschen Bergen" (between Rathen and Petersdorf, south of Fuerstenwalde). The entire area is situated in a forest. For a while a part of the forest was being cut down. [redacted]

50X1-HUM

[redacted] the entire area has been enclosed with a barbed wire fence. Daily large amounts of cement are brought into the area. It is not known what is being built there. This restricted area is being guarded by soldiers of the National People's Army. It is not known whether the Soviets have any connection with this restricted area. [redacted]

50X1-HUM

[redacted] In Dreieck between Langenwahl-New Golm - Alt-Golm work on a construction project, about which no more is known, is to start. It is not known whether this work is for the Soviets or the National Peoples Army.

50X1-HUM

[redacted] nothing more has changed in Fuerstenwalde. The Soviet barracks are still fully occupied as before. [redacted]
